To whom it may concern,

I am currently a full time Art and ICT teacher employed in Nottingham with more than six years experience teaching at Secondary School level. I have taught through out all Key Stages in my main subject specialist area which is Art and Design and Key Stage 3 and 4 in my second subject specialist area ICT as well as implementing the schools Citizenship and General Studies/Guidance schemes of work.

I completed my degree in Fine Art Sculpture some years ago and am still a practicing artist in my spare time. I try to bring together all of my personal interests in Art, photography and ICT and this can be seen on my website together with examples of schemes of work that I have designed and implemented within my current position.

I am interested in finding a suitable position in the right school for me that is a part time post which is more local to where I live. Having just had my first daughter I feel that it is now of major importance to have the career that I want as well as the time to bring up and teach my own daughter and be a good role model for her and feel that I have a lot to offer to both a suitable school and my daughter with my varied and creative knowledge, understanding and skills in more than one subject area.

I am looking to work for approximately three days a week which can be tailored to suit my new post in the suitable school and my daughter's flexible childcare that I am planning for her.

I am willing to attend an interview to discuss my experience and plans for the future and look forward to hearing from you.

Yours truly,
