Position: Art & ICT Teacher (Full Time)

Additional Information:

I am a committed, ambitious, meticulous person who works well as a team member. I have a keen interest in developing my responsibilities within my specialist areas, and find teaching very rewarding.

Photography is one of my hobbies, which I hope to develop and incorporate into my ICT training. My creative strengths are three dimensional work and mixed media, due to my sculpture degree, which I really enjoyed. I am also keen to develop my knowledge and understanding in web design and am currently working on my own web site in my spare time, which brings together all of my interests. To include my own artwork, photography and ICT work.
